\$600 for you

\$10 million dollars to Pakistan for gender Studies

\$453 million to the Ukraine for "assistance"

\$130 million for Democracy programs in Nepal

\$3.3 billion to Israel for "Programs"

\$4 billion for Navy Weapons

Red or Blue they do not give a fuck about you.

Get 6,000 page bill at 2pm, voted on it at 4pm. They voted on something with no idea what they were voting for.

\$136 million ear marked for insurance for new cars for foreign aids workers

I'll say it again red or Blue they truly do not care about you.

Fun fact if they would have used the whole stimulus for American people every single American including children would have received roughly \$2600 so a family of 4 could get close to \$12,000

More than 1/3 of the money went to foreign governments....let that sink in

So all these people who scream "Back the blue" constantly how do you feel about what happened at the capital in Oregon yesterday? The police protected big daddy while he decided what rights to give us. I back good police who will protect your rights over their pensions. But don't get it twisted. They will be the first line of defense for the maggot politicians in office. Some will lay down the badge and join us others will blindly defend the corrupt politicians who aim to enslave you. To POLICE EVERYWHERE, pick a fucking side. This war is inevitable. You will find yourself at a crossroads and when you do you will know. Will you follow the unconstitutional orders of your superiors? Or will you protect and defend the PEOPLE? The choice is yours. But it's coming.

Women tend to fire on emotions over tact. I have found in my experience

had from the side I was coming in on. Stop trying to prove to us how tough you are it only makes you look foolish. Want to be there at rallies be there in a support capacity but know your place, it's in the back. Women are to be protected. They put us in jeopardy by being upfront. We have to switch to protection mode instead of assault mode. Seriously when we need you we will call on you. And there is no PG and no woman is a PB. It will NEVER happen. PG doesn't exist

A society that emasculates its men will eventually be replaced by one which does not.

It is time we stop pretending men should be more like women and women should be more like men.

We are different for a reason and we are at our best when we don't deny that obvious truth.

My fiancé always tells me to stay out of the way. Then again he is a firefighter, he can't be worried about protecting what he loves, over focusing on the danger in front of his face. It would be a distraction.

Women can be so stupid. When it comes to the kids, he knows I am the boss, and he stands behind me. 🤔🤔🤔

As a female, I fully agree with you  
Some women think they can take on the role because they think they are as tough as men but they aren't  
That isn't a slight. They should be happy to celebrate their own merits

To be honest, I'm tougher than most men that I know. I'm very rational and never emotional. I would agree with you that most women are, but not (all) are. We are rare unicorns, but we exist.

I make better decisions than most men and women in chaotic situations. I am everything opposite of what you've described and am a woman.

It's a hard pill to swallow for some of us girls, but facts are facts. I know I'm incapable of close quarter combat because I'm broken and have lots of metal in me. I'm staying in my lane, guns loaded. Stay strong boys, it's sexy as fuck.

Exactly. Women are to be PROTECTED. Let the men do the work. And more men to step up so women don't feel like they need to. We need more and more men to wake up and stand up.

This is the last mention from me you will ever get, enjoy it pussy. At least back up your words. At least try and act like a man who's balls have dropped.
